OVERALL FEEDBACK

Program Overview:

Overall, this program successfully achieved our primary objectives:

- Empowering participants with essential skills and knowledge, such as financial management and bookkeeping, necessary for business growth.
- Facilitating access to financing opportunities to further their business endeavors.
- Raising awareness among small enterprises about the steps needed to transition into a private limited company (Sdn. Bhd.).

OVERALL FEEDBACK

Insights:

- The recruitment poster could be enhanced by including more detailed information, particularly about registration requirements, to ensure a smoother onboarding process for participants.
- Many participants now have a clearer understanding of the distinction between an enterprise and a private limited company, as well as the necessary steps to transition into a private limited status.
- Having a smaller facilitator: participants ratio (1:) helped a lot as the facilitators played a crucial role during the bootcamp, helping participants prepare their business pitches and providing constructive feedback, which significantly boosted their confidence in presenting.
- Most judges were impressed with the participants' pitching, however were hoping that the Q&A session could be timed longer.
